

# PRODUCT SHEET City1 Controller

Article Code: C1S0000

Dimensions	Weight	Colours
H1425 x Ø194 mm	42.5 kg	RAL 7016 (Charcoal Grey)
Protection Degree	Material	Insulation
-	Steel >> 6 mm	Class II
Ventilation	Locking	Temperature
Natural	Special lock	-10°C to +55°C

## DESCRIPTION

The City1 controller without automation is capable to integrate position lights, control actuators and / or operation logic.

This City1 controller is normally associated with a cabinet or another controller (City3, 5 or 6) with built-in PLC (U100, U200 or Logo!)

The City1 controller is meant to be fixed to the ground on its embedding base (7).

Technical compartment (2) is accessible from the front. A trap door opens onto a push button to force descent of bollard. Finally, a polycarbonate (or aluminium) printed front face with a position light red/amber and/or control actuators.

The controller is delivered without control actuators. These are available as options.

## COMPONENTS

- 1- City1 controller,
- 2- Access to technical components, lock,
- 3- Emergency trap door with special square imprint for fire-fighters,
- 4- Polycarbonate front face, not printed, (dimensions 258 x 140 mm),
- 5- Key to emergency trap door,
